Chronometer Sitting from Harrington

Sunday Sept 11 1825

Commences with moderate breezes and clear weather with a heavy swell from the S.W.

P. M. Set a reef out the mainsail, put Bonnet on the foresail

At Meridian set the main sail and set reef out

Dist 5-0.09 S

Monday Sept 12 1825

This day commences with strong breezes and clear pleasant weather 7 P.M. have too hove to the westward

Meaning the strong breezes and cloudy A.M. made the Land bearing N.E. stopped and course for it

Batt obs 57' 23" S.

Tuesday [illegible] 1825 Pleasant Commencing with
Moderate breezes and clear pleasant weather, Employed
employed at Necessary Ships duty, Saw a white
a white Spout Leandscape supposed to be
New Zealand, but not having a clear
passage to a Harbour, We bore away
South and other Point of the same Island
in Sounding the Pumps, We could find
a Bay, and Perceived Canoes coming
Down into this Large Smily and came too in
8 fathoms water Sandy bottom, at 8 P.M. and
at 9 Perceived Anchored, Light airs Variable
with a strong breeze from N.N.W. Shortened
Sails and Hoisted in and out this Boats Employed
the night, at Midnight the two Painters
which was made fast too an Alarbo and
whale boat, then Sawing after parts and
the boat filled and were astern 8 P.M. came
too in 4½ fathoms water Sandy bottom, latter
part this day hand employed repairing
Larboard whale boat and Rigging

Wednesday September 14th 1825 Throughout this
day fresh breezes and Pleasant hand employed as
on thursday Sawing the whale boat and other
necessary work, and with strong breezes & cloudy

Remarks [illegible] at Anchor in Falklands Island
Thursday Sept. 15th 1825 This day Begins with
fresh breezes from W. S. W. and clear all hands
employed stowing the hold and repairing
the Starboard whale boat S. O. C. N. W. got
underway and stood for the westward but not making
discoveries, but it being late concluded to turn
back for our old anchorage & past 5 P.M.
came to in 3 fathoms water Sandy bottom
this day ends with moderate breezes & Pleasant

Friday Sept 16th 1825 First part this day
light airs from N. E. & clear we at the island
our water casks to line on the beach P.M. the
boat left the Ship to make discoveries to the
N. E. and to procure some drift wood 7. P.M.
the boat returned having procured some
wood and some of the Starboard whale boat
the having struck on a rock by night and stove
to pieces, this day ends with fresh breezes and clear

Saturday Sept 17th 1825 This day commences with
moderate breezes from the westward and foggy
weather, hands employed throughout this day
procuring wood and getting water on board
Latter part moderate and thick cloudy weather
